

MIZAR

our **cutting-edge 3D camera**
designed specifically for
high-performance bin picking system

WHAT IS **MIZAR**

Mizar, an advanced 3D camera developed by Euclid Labs.

Designed to excel in the most challenging environments, **Mizar** enables precise part detection even in the toughest conditions, including oiled surfaces with bright reflections or boxes with plastic bags and reflective walls.

Manufactured for the industrial environment, **Mizar** sets a new standard for reliability and performance, ensuring optimal results in diverse and challenging scenarios.

Installed specifically for tasks such as machine tending, assembly, robotic bin picking, and the precise localization of ordered objects.

Best for
shiny objects

IP65 to adapt to
harsh environment

Easy to mount
and connect

Fast thanks to
its 4 lasers lines

Multiple models to meet
all demands available

Outstanding performances on shiny objects

Real pieces

Point clouds

MIZAR MODELS

Measures

MIZAR 600 A 450mm B 600mm C 420mm
working distance 1200mm

MIZAR 1200 D 1000mm E 1200mm F 800mm
working distance 2500mm

MIZAR 1600 G 1000mm H 1600mm I 1200mm
working distance 2500mm
